

Building Block Species Report

Trichocentrum lanceanum (Lindl.) M.W.Chase & N.H.Williams

Synonyms

- *Lophiaris fragrans* Raf. in Fl. Tellur. 4: 41 (1838), nom. superfl.
- *Lophiaris lanceana* (Lindl.) Braem in Schlechteriana 4: 17 (1993)
- *Oncidium lanceanum* Lindl. in Trans. Hort. Soc. London, ser. 2, 2: 100 (1836)
- *Oncidium lanceanum* f. aureum Christenson in Phytologia 71: 442 (1991 publ. 1992)

I think the main features of *Trichocentrum lanceanum* are the open, broad petals. Also color could intensify on its progenies. OrchidWiz X9.1 recorded 57 offspring (First Generation) and 156 Total Progeny of *Trt. lanceanum*. It had been awarded 53 times.

About hybridization, *Trichocentrum* x *Haematochilum* (*Trt. lanceanum* x *Trt. luridum*), also considered a nature hybrid, and *Trt. Josephine* a backcrossed of *Trt. luridum* x *Trichocentrum* x *Haematochilum* are the two with the most offspring, according to OrchidWiz X9.1.

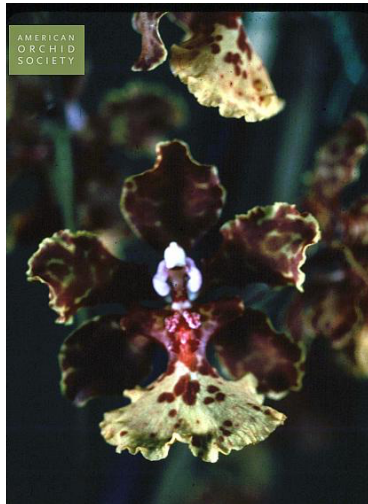

Looking the AOS *Trichocentrum* x *Haematochilum* awardees, seems highly variable. The following are some awards extracted from Orchidpro

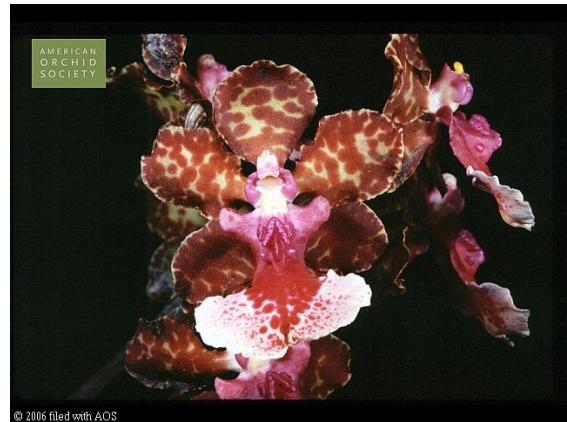

Oncidium haematochilum 'Karen's Dream'
AM/AOS (86 points)
Oncidium lanceanum x *Oncidium luridum*

Oncidium haematochilum 'Sylvia Lee' HCC/AOS
(76 points)
Oncidium lanceanum x *Oncidium luridum*

Oncidium haematochilum 'Lil' AM/AOS (81 points)
Oncidium lanceanum x *Oncidium luridum*

Oncidium haematochilum 'Larkwood' HCC/AOS (77 points)
Oncidium lanceanum x *Oncidium luridum*

Trichocentrum Maureen (*Trt. carthagenense* x *Trt. lanceanum*) inherited the open, wide shape of *Trt. lanceanum* with nice blotched imparted by *Trt. carthagenense*. This cross received 13 flower quality awards, 4 culture and one JC/AOS

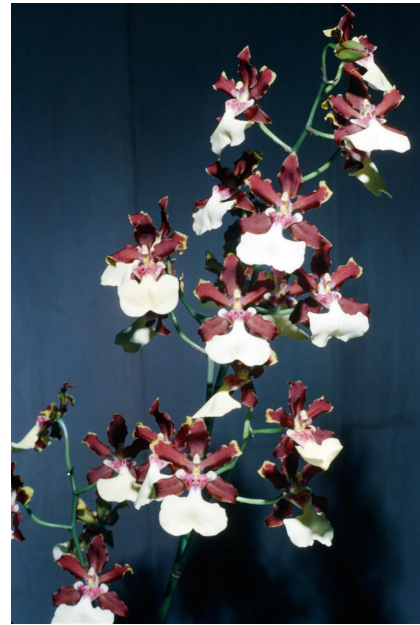

Oncidium Maureen 'Blackie' JC/AOS (0 points)
Oncidium Chanticleer x *Oncidium Eximium*

Trt. Doctor Schragen (*Trt. lanceanum* x *Trt. splendidum*), it is the most awarded of the *Trt. lanceanum* first generation. Like *Trt. Maureen*, progenies are probably variable, depending what clone of *Trt. lanceanum* had been chosen.

Oncidium Doctor Schragen 'Susan' AM/AOS (82 points)
Trichocentrum lanceanum x *Trichocentrum splendidum*

Oncidium Doctor Schragen
'Moelani' AM/AOS (82 points)
Trichocentrum lanceanum x
Trichocentrum splendidum
