Phalaenopsis workshop

Tim Brown and Emelia Hamilton will be breaking out compots of phalaenopsis to pot up individually and gift to those present. Viewers will see what a compot is and how it is separated and potted up. We will show you who the parents are and what we might expect out of the cross. We hope to see these plants in a few years in bloom!

Everybody

ORCHIDS

Mini Orchids

Orchids 101 is a class designed for beginner orchid people or anyone who just want to learn a bit more.

It meets most months in the greenhouse at 2:00 and ends in time for everyone to attend the main meeting.

This month Lorna Kissling will be showing and talking about growing mini orchids.
