TEXAS ORCHID SOCIETY

MEETING AT
NORTH HAVEN GARDENS
7700 NORTHAVEN ROAD
DALLAS, TX 75230
AUG, 4TH 2:30

Repotting Orchids

At our August meeting we will have a demonstration of various repotting techniques for a variety of genera. Linda Horton and Emily Quinn will show repotting and then discuss various places where you can get the repotting materials.

They will include cattleyas, phalaenopsis, oncidium, slippers, and mounting plants.

Linda and Emily are a mother daughter duo, both of whom are orchid judges. They have been growing orchids for decades. (we won't discuss how many). They have a greenhouse filled with a variety of orchid genera and can usually be found in said greenhouse working with their orchids.
